Professional Summary

AI & Machine Learning Engineering student with hands-on experience building Agentic AI systems, multimodal assistants, and full-stack applications using Python, FastAPI, React, and Next.js. Published research author with an IJCRT publication and two independently published Amazon KDP books. Experienced in LLM integration, REST APIs, database development, rapid prototyping, and hackathon-based software development. Incoming incubation intern at WizzyBox.

Education

Maharaja Institute of Technology, Mysuru	2023 – 2027
<i>Bachelor of Engineering – Computer Science and Engineering (AI & ML)</i>	
Sri Adichunchanagiri Independent PU College	2021 – 2023
<i>Pre-University Course – PCMB</i>	

Professional Experience

WizzyBox Private Limited	Sep 2026 – Nov 2026
<i>Incoming Incubation Intern – WizzyBox Career Accelerator Program (WCAP)</i>	
– Selected for the WizzyBox Career Accelerator Program (WCAP), delivered by WizzyBox in partnership with NammaQA. – Scheduled for hands-on exposure to software development, live project workflows, technical training, mentorship, and engineering practices.	

Projects

Agentic AI-Based Tournament Management System	<i>Python, FastAPI, SQLite, LLMs</i>
– Automated tournament registration, scheduling, and match coordination through an agentic AI architecture. – Built backend APIs, database integration, and user-facing workflows, completing the core system within a 3-day hackathon.	
Learning Management System (LMS)	<i>React.js, Next.js, Tailwind CSS, Firebase</i>
– Developed a full-stack LMS to centralize authentication, course management, student dashboards, and learning progress tracking. – Implemented responsive interfaces and persistent progress functionality using React, Next.js, Tailwind CSS, and Firebase.	
Ollama Local Chatbot	<i>Python, Streamlit, Ollama</i>
– Built a privacy-focused local AI chatbot that eliminates dependency on external LLM APIs by running inference directly through Ollama. – Integrated live web search with a lightweight Streamlit interface for real-time information retrieval and local AI conversations.	

Technical Skills

- **Programming:** Python, JavaScript, TypeScript, Java, C, HTML, CSS
- **AI & Machine Learning:** Agentic AI, Multi-Agent Systems, Machine Learning, Deep Learning, LLM Integration, RAG, Prompt Engineering, Sentiment Analysis
- **LLM Technologies:** Gemini, OpenAI, Perplexity, OpenRouter API, Ollama
- **Web Development:** React.js, Next.js, Node.js, Tailwind CSS, Streamlit, Responsive Web Development
- **Backend:** FastAPI, REST APIs, API Integration, Backend Architecture
- **Databases:** SQL, SQLite, SQLite Cloud, Firebase
- **Cloud / Deployment:** Firebase Authentication, AWS Foundations, Microsoft Azure Basics, Render, Vercel
- **Tools:** Git, GitHub
- **Soft Skills:** Communication, Team Collaboration, Problem Solving, Time Management

Research & Publications

Tournament Management Agent Using Agentic Artificial Intelligence	<i>International Journal of Creative Research Thoughts (IJCRT), Dec 2025</i>
– Published research paper in the International Journal of Creative Research Thoughts (IJCRT), Volume 13, Issue 12, December 2025, pp. g967–g975. – Proposed an AI-powered Tournament Management Agent integrating FastAPI, SQLite, and Google Gemini for natural language-driven tournament operations.	
– Paper ID: IJCRT2512785 — Publication Page — PDF	

Published Books

- *Reclaim Your Focus: A Guide to Dopamine Detox and Get Things Done* [Amazon]
- *The Two-Speed Mind: Solving the 90s vs. 2000s Conflict to End Your Structural Stress* [Amazon]

Certifications

- **Infosys Springboard:** Getting Started with Large Language Model Operations (LLMOps) – AI/ML
- **IBM SkillsBuild:** Artificial Intelligence Fundamentals
- **IBM / Coursera:** Statistics for Data Science with Python
