Profile

AI & ML undergraduate (2027) with hands-on experience in intelligent systems, multi-agent architectures, and scalable backend development. Published researcher focused on building AI-driven solutions that bridge research and real-world applications.

Education

Bachelor of Engineering (B.E.) in Computer Science & Engineering (AI & ML) (2023 – 2027)

Maharaja Institute of Technology, Mysuru

Experience

- Architected and developed an Agentic AI-based Tournament Management System.
- Designed multi-agent workflows for intelligent automation and decision-making.
- Built scalable REST APIs using FastAPI and SQLite.
- Integrated AI-powered natural language query assistant.
- Published research in International Journal of Creative Research and Development (2025).

Technical Skills

Programming: Python, C

AI & ML: Machine Learning, Multi-Agent Systems, Agentic AI

Backend: FastAPI, REST APIs, SQLite, SQL

Cloud: AWS, Microsoft Azure, IBM Cloud

Certifications & Courses

- AWS APAC – Solutions Architecture (Forage)
- Gen AI Powered Data Analytics – Tata
- Tools for Data Science – IBM

- Microsoft Azure Cloud Services
- Crash Course on Python – Google

Achievements

- Published peer-reviewed research paper on Agentic AI system (2025).
- Independently authored and published two books on Amazon.
- Demonstrated applied AI engineering through real-world system implementation.
